

## Track Your Assets, Equipment and Vehicles with the NexTraq Fleet Tracking Solution

On a construction site, you need to track more than just your fleet of vehicles. You need to be able to manage your assets and heavy equipment. At NexTraq®, we understand your business and offer the most comprehensive fleet and asset management solutions in the industry.

### 🎯 Track Anything, Anywhere

- » Intrinsically safe hardware
- » Battery-powered or hard-wired
- » Externally mountable (IP69)
- » Global satellite tracking device
- » NexTraq asset tracking line

### 🎯 The Benefits to You

- » Validate hours used for rental equipment to ensure accurate billing
- » Ensure proper maintenance of assets to prevent damage
- » Eliminate unauthorized usage
- » Prevent theft of expensive assets

“The NexTraq GPS Fleet Tracking solution has definitely been beneficial for our growth and for cutting costs. The solution pays for itself. Every single month, it pays for itself.” – Jodie Evrard, Evrard-Strang Construction, Inc.

Contact NexTraq and learn how we can construct the perfect rollout to keep business running as usual. Our certified network of installers can install devices after-hours, over the weekend or in staggered rollout to ensure you stay productive.
