

## The NexTraq Fleet Dispatch Application

Increase Driver Productivity by 20 Percent or More

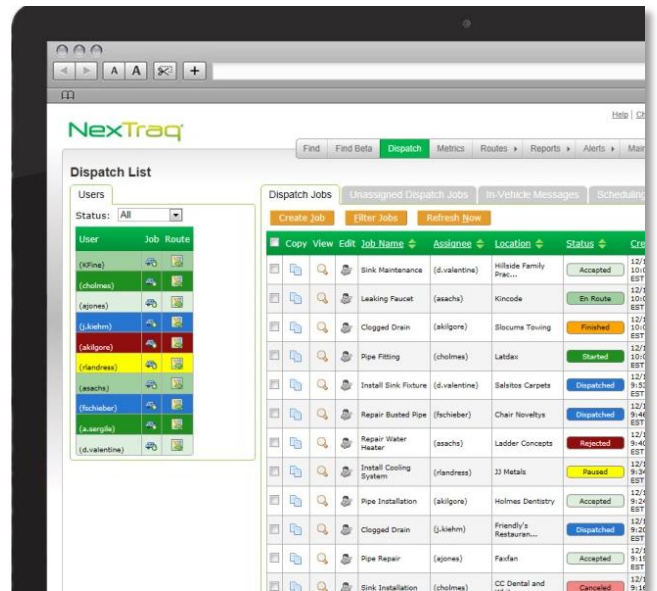

Ensure your drivers are provided with the most efficient routes to any location, so they can arrive on time, every time.

The NexTraq® Fleet Dispatch application works with an in-vehicle Garmin® device or the NexTraq Connect™ mobile app, and allows for two-way communication between your drivers and the office. With Fleet Dispatch, you can:

- ⊗ Increase driver productivity
- ⊗ Automate business processes
- ⊗ Improve customer satisfaction

### Increase Driver Productivity

- ⊗ Follow voice-guided, turn-by-turn directions
- ⊗ Change routes on the fly to avoid traffic congestion or road delays
- ⊗ Take the most direct routes to any location

### Automate Business Processes

- ⊗ Assign and schedule jobs using the NexTraq Job Schedule Board
- ⊗ View employee availability on one screen
- ⊗ Create jobs using simple drag and drop functionality

### Improve Customer Satisfaction

- ⊗ Provide customers with accurate ETAs
- ⊗ Create instant routes to new service requests
- ⊗ Send the closest vehicle to an emergency location
